Conference Registration Form

Empowering our future is a conference bringing together an emerging network of workers, worker-advocates, and their supporters who are concerned about the future of long-term care in Pennsylvania. It will provide a unique opportunity for direct-care workers to learn from each other and create new alliances with colleagues from across the state who understand the crucial role direct-care workers play in our state's long-term care system.

Yes... I plan to attend the *Empowering our future* conference on October 3, 2008.
